CUSTOMER COMPLAINT REPORT

Reference No: CC-2026-00154

1. COMPLAINT IDENTIFICATION

Complaint Reference No.:	CC-2026-00154
Date of Complaint:	12 July 2026
Date Received by QA:	14 July 2026
Received Via:	Email
Complaint Category:	Foreign Matter Contamination

2. COMPLAINANT DETAILS

Organisation:	ABC Formulations Ltd.
Contact Person:	Mr. Rajesh Kumar, QA Director
Address:	MIDC Industrial Area, Pune 411018, Maharashtra, India
Email:	rajesh.kumar@abcformulations.in
Phone:	+91-20-2678-9012

3. PRODUCT AND BATCH INFORMATION

Product Name (INN):	Metformin Hydrochloride API
Product Strength / Grade:	IP/BP Grade (99.5% purity)
Batch / Lot Number:	MFH260712A
Manufacturing Date:	12 June 2026
Expiry Date:	11 June 2029
Quantity in Full Batch:	500 kg (25 HDPE Drums)
Quantity Affected:	25 kg (1 HDPE Drum, Drum No. D-047)
Storage Conditions:	Store below 25 deg C, protect from moisture
Country of Origin:	India

4. DETAILED COMPLAINT DESCRIPTION

During routine incoming quality control inspection at our Pune facility on 10 July 2026, our QC team identified the presence of multiple dark-coloured foreign particles inside one sealed HDPE drum (Drum No. D-047) from the above batch. The foreign particles were distributed throughout the material and ranged in size from approximately 0.5 mm to 3 mm in diameter.

The drum showed no visible signs of external damage, tampering, or compromised seal integrity. All other 24 drums from the same consignment passed incoming inspection without issue. The affected drum has been quarantined immediately.

Initial visual examination suggests the particles may be metallic or carbonaceous in nature. Laboratory analysis using SEM and EDS has been initiated to characterise the contaminant.

5. INITIAL RISK ASSESSMENT BY COMPLAINANT

Severity Assessment:	CRITICAL
Reason for Critical Rating:	Foreign matter in API - direct patient safety risk if released
Regulatory Impact:	Mandatory reporting to CDSCO under Schedule M (GMP compliance)
Patient Exposure:	None - batch quarantined before any use
Market Impact:	Drum D-047 (25 kg) quarantined

6. REQUESTED CORRECTIVE ACTIONS

1. Immediate investigation into source of foreign matter in Batch MFH260712A.
2. Root cause analysis (RCA) report within 15 working days.
3. CAPA plan to be submitted within 20 working days.
4. Replacement of 25 kg Metformin API from a new unaffected batch.
5. Certificate of Analysis and Certificate of Conformance for replacement.
6. Confirmation of CDSCO regulatory notification status.

7. SUPPORTING DOCUMENTS

- Incoming Inspection Report No. IIR-2026-0847
- Photographs of foreign particles (4 images, attached)
- Quarantine label and segregation record

Submitted per Quality Agreement dated 01 Jan 2025. Authorised: Mr. Rajesh Kumar, QA Director - 12 July 2026
